

GOOD HEALTH & WELL-BEING

Posted on April 3, 2018 by CHD Group

Category: [Portfolio](#)

Building ownership in healthcare is the future that drives health education ahead. CHD shapes that narrative through multiple formats, everyday. In line with Sustainable Development Goal 3, CHD Group is working tirelessly in all villages to provide not just preventive or curative healthcare but to also ensure that the right information in healthcare reaches people, and importantly in the language they understand.

In an age where social media confuses people, CHD Group combats fake information to mainstream and protect people.
